DDD GROUP | BUILT FOR THE JOB

FIRM PROFILE

DDD Group, LLC is committed to designing, building and maintaining high quality, sustainable and cost-effective projects that improve the quality of life of the people and communities they serve. We build projects in a collaborative team environment using innovative techniques to improve productivity, reduce costs and give clients the best project possible.

At DDD we recognize the value of a beautifully designed, sustainable building, that is also functional and on budget. We are committed to adding value, measurable results and peace of mind.

DDD Approach
Our approach is integrated, data-driven and collaborative. We have a high standard of streamlined operations, to maximize time and resources, to ultimately give our clients the best possible experience.

Integrated Project Delivery
Our 360° approach to services is supported by our custom model of **Integrated Project Delivery**, which nurtures a culture of continuous improvement and guarantees solutions built to fit your budget.

True Collaboration
At DDD we build projects in a collaborative team environment, using innovative tools and technologies designed to improve productivity, reduce costs, and give clients the best project possible.

Technology and Innovation
A continued commitment to technology and innovation is part of our corporate culture and one of or main differentiators.

DDD GROUP | BUILT FOR THE JOB

CORE COMPETENCIES + SERVICES

- **Architectural Design:** Our approach to design services gives clients the added value of an integrated practice with an in depth understanding of the cost, schedule and life cycle implications of their design recommendations.
- **Construction**: DDD takes pride in being a BUILDER, and the integrated vision that gives us that distinction is what differentiates us from our competition. Instead of focusing just on design or construction, we focus on our client's product.
- **Management & Consulting:** Whether you engage us to be your advisor from project conception to completion, or to assist with particular phases or tasks, we provide executive level management expertise and customized services to meet your specific requirements.
- **Small Construction & Improvements:** Our commitment with our clients does not end with project closeout. Our building knowledge and construction experience remains at your side during the life of your project.

A DIFFERENT KIND OF COMPANY

- Over two decades of experience in all aspects of construction, design and management.
- **DDD is a different kind of Construction Company.** Our custom model of Integrated Project Delivery, nurtures a culture of continuous improvement that guarantees solutions built to fit your budget.
- **We have a 360° approach to services**. We offer clients sustainable and cost effective solutions that cover the full life cycle of your facility.
- **Turnkey Experience:** In-House Design, Construction & Building Maintenance Staff.
- **Design-Build** is the backbone of our business.
- We have never failed to bring a project to completion
- Our trained staff holds several federal security clearances
- Sound financial condition and nearly two decades of continuous operation.
- Bondable (75MM single / 150MM aggregate). Larger may be considered
- We've never had a bond claim.
- We embrace **Innovation and emerging technologies** and we foster a culture of continuous improvement. A continued commitment to technology and innovation is part of our corporate culture and one of or main differentiators.
